- 
- The diagram illustrates the structure of a 100-bit message for three different protocols:
- Naive Protocol:** The message is a single 100-bit block.
  - Protocol with a Single Parity Bit:** The message consists of a 99-bit data block followed by a single parity bit.
  - Protocol with a CRC:** The message consists of a 96-bit data block followed by a 4-bit CRC.
